**DETAILED ACTION**

1. Claims 1-11, 14, and 15 are pending.
2. In the response filed October 13, 2009, Applicants have elected Group I, claims 1-10, 11, 14 and 15, without traverse. The compound of Example 1 is the preferred species. The compound is depicted below

3. Rejoinder of the method claims will be addressed upon allowance of claimed subject matter.
4. Applicants are reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently filed petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(h).
5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
6. Claims 1, 8-10, and 14 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

- A. At claims 1, 8-10, and 14, is a salt intended?
  - B. At claim 8, is suggested that the compounds of Examples 1 to 20 should be named.
  - C. At claim 14, 2<sup>nd</sup> line, the phrase "claim 1 or" should be amended to read as "claim 1 or". Clarification is appreciated.
7. The Information Disclosure Statement filed February 9, 2006 has been considered. The prior art references alone or in combination form do not teach nor suggest structurally similar compounds as the instantly claimed invention. There is no motivation to modify the prior art compounds to derive the claimed compounds. Accordingly, no rejections based upon prior art are made.
8. Claims 2-7 are objected to.
9. Claim 15 is allowed.
10. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Zinna Northington Davis whose telephone number is 571-272-0682.
11. The fax phone number for the organization where this application or proceeding is assigned is (571) 273-8300 for regular communications.
12. Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only.
